Cologne.—The Americans now beginning their long homeward journey are leaving behind them a number of permanent monuments to the soldiers who died before they reached the Rhine. These monuments are scattered throughout the battleground area, which is still being fought over. The visitor will find a series of concrete monuments adorned with German machine guns, and, in some instances, with German bayonets, marking the spots where the front line of a certain division ran, or telling how a certain village was captured.

On the road from Stenay to Dunsmuir, which passes along the side of the Meuse in the direction of Metz, one can see the division's area, while through the Argonne Forest and at Cantigny, south of Amiens, memorials bearing divisional insignia mark the positions of the Americans' part in the war.

lice. All the more passionately and energetically, however, will we work for the home land again, and flourishing in justice, concentrate our care and endeavor on the part of the poor but just German."

## SOCIAL EVENTS

Aaron Thompson, who lives on the Delavan road, entertained at his beautiful suburban home Sunday. Sixty-five friends enjoyed his hospitality. A dinner was served at 1 o'clock. Several kodak pictures were taken of the guests, the tables and the surroundings. Mr. Thompson gave a large dinner once a year for his friends, who come from all the surrounding country. Among those from this city who attended were Mr. and Mrs. S. H. Locke, Mr. and Mrs. F. P. Starr, Mr. and Mrs. John Jones, Mr. and Mrs. J. R. Lamb, Mr. and Mrs. Wilkinson, Mr. and Mrs. Harold Jones, Mr. and Mrs. J. Gardner, Mrs. Cora Cutter.

The circles of St. Patrick's church gave a lawn social Tuesday afternoon at the home of Mrs. George H. Devins, 218 Locust street. About 100 attended. A number of the women played cards while others brought their sewing and knitting. Refreshments were served. Quite a sum of money was raised, which will go for church work.

The birthday club went to the Country club this morning for breakfast. Breakfast was served on the porch at 8 o'clock. The birthday anniversary of Mrs. Frank Jackson was celebrated. After breakfast, golf was played.

Thursday afternoon is bridge day at the Country club. The game will start at 2:30. Mrs. C. S. Putnam, who has charge for the afternoon, asks all members with cars to please invite their friends to fill the cars and attend the game in the best cars. Prizes are given for the best driving. The money goes to help furnish the club house.

Miss Rose Roberly, Chestnut street, was hostess Tuesday evening to the members of the Anita club. Ten of the girls attended and a social evening was enjoyed.

Mrs. George W. Yahn, Jr., 438 North Pearl street, entertained at a baby party Tuesday afternoon. Six babies and their mothers were invited. It was for Billy Harlow, son of Mr. and Mrs. Jack Harlow, 122 Cedar lake, who with his mother is spending a few days in Janesville. Refreshments were served at 3 o'clock.

Eight young women members of the Dulcis club were entertained last evening by Mrs. Otto Lukas, 1031 Jackson street, Tuesday evening. The guests of honor were Miss Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.; Hazel Kitterman, Sioux Falls, S. D.

Miss Vivian Recker, Sharon, entertained last Friday evening in honor of Miss Florence Sherman, Sharon, who was married to Ernest Johnson of this city Saturday. A large number of friends attended. The house was decorated in pink and white flowers. Refreshments were served. The bride-to-be was presented with a number of gifts.

The Philatelic society of St. Peter's English Lutheran church met at the church Tuesday evening. The Young People's society of this church will meet Friday evening at the church parlors. All members and friends are cordially invited to attend.

## CLUBS AND SOCIETIES

ELABORATE DEFENSE  
PREPARED FOR NEW

(BY INTERNATIONAL NEWS.)

Los Angeles, Cal., July 9.—An elaborate defense, will be prepared to save Harry S. New, Jr., said to be a son of United States Senator New, of Indiana from the gallows for the murder of his 24-year-old fiancée, Miss Freda Lesser, in Toppo, Kan., early Saturday morning.

A lawyer of national fame, it is said, will be employed to fight for the life of New. The money for this attorney, according to an unverified report, comes from a man close to Senator New, and direct from the Senator's pocketbook.

Formed upon the body of Freda Lesser yesterday and which proved that she was to become a mother, has helped New's case immeasurably.

Novelist, John Fox, Jr., novelist, died of pneumonia.

MUSICAL FEST GIVEN  
AT COUNTRY CLUB

The Country club supper and entertainment was held Tuesday evening. The supper was served at 8:30. Mr. and Mrs. Hammon had charge of it. Eighty-five members were served. The tables were decorated with blue and white and red poppies. In the evening a musical program was given by Mr. and Mrs. Robert Dailey, Beloit. Mrs. Dailey sang four numbers, "Roberta, Roberta," "Daddy's Sweetheart," "Liza Lehmann," "Wake Up," "M. P. Phillips," "Immortal Love," "Neville," "Mrs. Gardner, Beloit, accompanied her.

Bob Dailey is a Janesville favorite. His "How Are You Going to Keep Them Down on the Farm?" "Remember the Salvacion Army Girl," with three other songs were full of pep, and put the audience in good humor. Peter Peterson, Beloit, accompanied him.

Mrs. Gardner did not come prepared to play. She had no music, but her many friends insisted upon her playing. She gave Beethoven's "Country Dance" and Moszkowski's "Waltz," which was well known in Janesville. She has appeared on several programs in this city.

After the program an informal dance was given. Among the guests from out of town were: Mrs. Orton, Chicago; Fred Gardner, Beloit; Mr. Halverson, Whitewater; and Mrs. Charles Wild, Beloit.

Sammie Sisters to  
Boost S. A. Fund

Sammie sisters again proved that they were true to the name of their organization when last evening they pledged themselves to help in the solicitation of funds for the Salvation Army Home Service fund.

A meeting was held at the home of Miss Marie Huginin. It was unanimously voted that the club volunteer its services. The sum of \$10 was donated from the treasury of the club. In every drive for funds during the war the Sammies have been among the first to offer their services. Much Red Cross work was done by the members, sponsored movies and sold candy to help the various calls for funds during the war.

Brunswick Principles  
In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture.

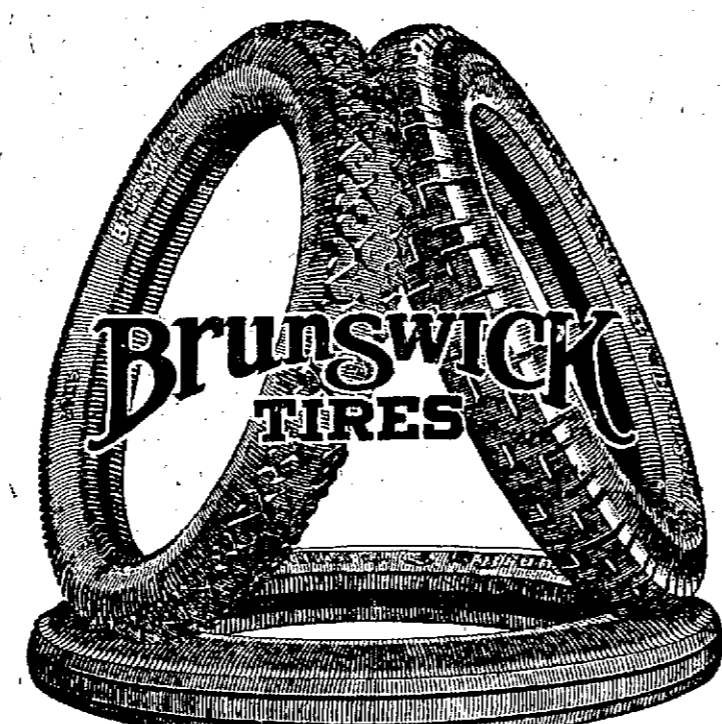

The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry.

What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products.

The Brunswick Tire is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market.

Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.

**READY FOR SHOWDOWN.**

Developments indicate that republi-  
can senators will make enough votes  
to revise President Wilson's league of  
nations covenant. Those who have  
felt assured that there would not be a  
fight against adoption without modifi-  
cation are not so optimistic. It is  
said that senators standing for better  
protection of American rights are  
ready to force to a showdown the  
peace treaty, the covenant and the  
proposed reservations. It is claimed  
that they have 60 votes in favor of  
reservations to American ratifications.  
It is aimed to crumple reservations  
which will command the support of  
49 senators, a majority, at all times.  
A dozen democrats are said to be  
among the 60 favoring reservations.

With the opposition lining up in  
such proportions it would be possible  
for the senate to dispose of the entire  
treaty before the president started on  
his stump speaking tour of the states.  
Administration leaders who have been  
crying loudly for an immediate test of  
strength may be accommodated with-  
out delay. If the opponents can  
swing their forces into line, it appears  
that the administration forces are in  
a hole any way one looks at the situation.  
If action is taken before the  
president makes his swing around the  
nation to give to the people his views  
on the matter, administration leaders  
cannot consistently block any move  
for that action.

Senator Gore's bolting of the pro-  
league faction and coming out strong-  
ly for reservations has done much to  
weaken the fighting force of the  
administration. The Oklahoma  
senator favors a bona fide reservation  
of the Monroe Doctrine, the protection  
of American sovereignty over  
immigration questions, the elimination  
of Article X, popular referendum  
on any war decreed by the league, and  
reservation in congress of the right  
to withdraw the United States from  
the league at any time and for any  
cause.

It is reasonably certain that the  
president is going to have difficulty  
in convincing the people that the An-  
gio-American Alliance is go-  
ing to be advantageous to the United  
States. Under the terms of that pact  
the United States agrees to go to the  
aid of France at any time she is at-  
tacked by Germany, but no provision  
is made for aid for the United States  
from France or England if we are at-  
tacked, say by Japan or any other na-  
tion.

The league of nations with the all-  
iance string does not appeal to the av-  
erage American as giving assurance  
that the league will be strong. If the  
league stands on its two feet without  
an agreement that three great powers  
are ready to enforce its provisions,  
then it would seem that the basic  
principles are weak. If the league of  
nations is to be a body to bring about  
perpetual peace its organization  
should be so complete along peace  
lines that the United States will not  
have to act as a watch dog for France  
or any other nation.

**GOOD WORK.**

The city council in special meeting  
last night made a start on a  
large and adequate police system,  
which if carried out, will assure the  
citizens a splendid organization.  
The spirit with which the aldermen  
discussed the future of the depart-  
ment indicated that some definite ac-  
tion will be taken at once.

By giving every member of the po-  
lice and fire departments a raise of  
\$10 per month, desirable candidates  
can be obtained. The city should be  
able to obtain good, clean, husky  
young men for the work at the start-  
ing salary of \$100. Alderman Bad-  
ger's suggestion that the members of  
both departments should be raised \$5  
every six months instead of \$10 every  
year is worthy of consideration. He  
is correct in assuming that it does not  
take three years to determine whether  
a man is qualified for the fire or  
police department.

Provision for two extra men to give  
each member one day off in seven will  
relieve a situation which has caused  
former members of the departments  
to become dissatisfied.

Preliminary steps to provide for a  
signal system and a combination pa-  
trol and ambulance will meet with  
the approval of all the citizens. The  
police department cannot be conducted  
efficiently without central sta-  
tion being in touch with the men on  
the beats at all times. With such a  
system it will be possible for each  
man to report regularly, and answer  
calls from central when needed.

The citizens' pride is aroused when  
the present dilapidated patrol is seen  
wheezing and chugging down the  
street, frequently giving a springing  
cough and then finally being landed in  
a garage for repairs. With a combina-  
tion patrol and ambulance the present  
requirements of the city would be  
met.

Gentlemen of the council, you have  
made a good start. The citizens are  
back of you.

**A GENEROUS GIFT.**

Alderman W. J. Hill has heeded the  
call of the folks of his ward and very  
generously offered to donate enough  
of his land along the river to provide  
for a bathing beach. Mr. Hill merits  
the commendation not only of his  
constituents, but of all the citizens of  
Janesville for thus responding so  
readily to the demand for more  
beaches and playgrounds.

The lumber for the bathhouses will  
be forthcoming at once and there is  
little doubt that enough volunteers  
will answer the call to erect the struc-

tures quickly so that the beaches can  
be used this season.

Now if some other public-spirited  
citizens will follow Mr. Hill's exam-  
ple and make it possible for the city  
to have more playgrounds and parks,  
even though not large at this time, we  
will have entered upon a campaign of  
progress which will amply repay  
those who will further it.

Again attention is called to the pos-  
sibility of organizing an association  
which will work toward the end of ob-  
taining parks and playgrounds.

It is true that Dr. Nolen is prepar-  
ing a city plan, but the organization  
of a strong body of men and women  
at this time who are interested in the  
welfare of the youth of the city will  
pave the way for action as soon as the  
city plan is completed and submitted.  
The preliminary work can be done.

The Gazette would like to hear  
comment and receive suggestions upon  
the park and playground propo-  
sition at once. Anyone wishing to  
express his views is requested to  
address communications to the Voice  
of the People, Editor, Gazette.

Let us get busy now.

John E. Kennedy, police commis-  
sioner, who has been sued for \$10,000  
damages for alleged slander, by a  
former member of the police force,  
will at least have an opportunity to  
make a denial of some of the accusa-  
tions made against him. This will  
give the public an opportunity to  
judge who is to blame in the contro-  
versy.

French restaurants are demanding  
that American officers remove their  
spurs while dancing the fox trot with  
the Parisiennes because the latter  
protest that their ankles are fre-  
quently cut and \$8 stockings are torn.  
Some of these army Beau Brummels  
wearing spurs have never been near  
a horse all during the war.

Q. Do cyclones always twist in the  
same direction? E. R. T.  
A. North of the equator cyclones re-  
volve opposite to the hands of the  
clock and south of it with the hands of  
the clock.

Q. Why is Atlantic City called the  
City of Conventions? Y. W.

A. This seaside resort is the favor-  
ite meeting place of societies and in-  
stitutions from all over the U. S. A.  
The usual number of conventions held  
annually is 170. The year 1919 will  
break this record as there are 200 con-  
ventions scheduled.

Q. Who is the inventor of the clock?  
A. E. B.

A. The inventor of the clock is un-  
known. This invention has been at-  
tributed to the Chinese who are said to  
have possessed clocks 2,000 B. C. Dur-  
ing the middle ages each town in  
Europe had its clock.

Q. Are dogs liable to poisoning  
from snake bite? R. L. T.  
A. All animals, including dogs, in-  
to whose circulation the poison se-  
creted by a snake enters, are poison-  
ed by it.

Q. What percentage of wheat is  
lost in the manufacture of flour? R.  
M. K.

A. About one-third in weight of  
wheat does not appear in the flour  
made from it. It requires about 300  
pounds of whole wheat to make a  
barrel of flour the standard weight  
for which is 196 pounds.

Q. May an object sink below the  
surface of the water and yet not go  
to the bottom? W. E. R.  
A. No. An object to sink below the  
surface must have a specific gravity  
greater than water. If it has, it will  
keep going down until it gets to the  
bottom, even if the water is five miles  
deep.

It is but unpleasant duty to change  
the name of the town of Eye, N. Y.  
It will never do to have a town with  
a name like that under the dry re-

Before we change the name of this

The government is to issue a new

The government might issue 70 new

never know it.

**DEAD CITY OF BOLIVIA**

One of the numerous cities claiming  
the title "Oldest City in the World"  
is Tiaguaco, near Lake Titicaca in  
Bolivia. A thousand years ago, say  
the scientists, Tiaguaco was as dead  
as it is today, and that is practically  
all that anybody knows of its history.  
Even the Incas, who held a record for  
antiquity in South America, admitted  
to their first Spanish visitors that they  
knew nothing about Tiaguaco, ex-  
cept that it was probably that the  
stone images scattered over the ruins  
were the people of the city turned  
into stone by some angry god.

There would be nearly as much of  
the old city visible today as there was  
in the time of the Incas had not the  
stones been so attractive to the Indians  
of nearby villages. As it is, beautifully  
carved idols have gone to decorate the  
door fronts of humble cottages, and  
polished stones to prop up chimneys  
and cave floors. The little modern  
village of Tiaguaco, near the ruins,  
is full of stolen souvenirs. Whole  
houses and churches are built of them.

After several centuries of this  
plunder the government of Bolivia put  
a ban on removing stones from the  
ruins, but there was then little left  
of old Tiaguaco. A few stone gods  
as huge and angular as any deluge  
of Egypt, the sites of a fortress, a  
palace, and many tombs, all vaguely  
marked by worn carved stones are  
scattered over a great desolate plain.

## MERCHANTS PULL TOGETHER; FORM NEW ORGANIZATION

A closer relation between the retailers of Janesville was cemented at a dinner and meeting of the commercial division of the Chamber of Commerce held in the gymnasium of the "Y" last night.

A dinner was served promptly at 7, directly after which Joseph Connors, temporary chairman, called the meeting to order and in a few words told the purpose of the meeting. He then introduced A. Jacobsen, secretary of the commercial division. Mr. Jacobsen told of the city's growth and the need for greater cooperation among the retailers.

William Taylor, Louis Levy, and William Sherer were appointed by the chairman to nominate two men from every grade in Janesville to be voted on: electricians, F. A. Albrecht; florists, Edward Amernohl; furniture, Charles Putnam; coal, Leo Anderson; newspapers, H. H. Bliss; photographers, W. A. Mott; bakery, A. J. Wilbur; dentists, R. J. Hart; physicians, Wayne A. Munn; osteopaths, Emil Schwesler; painters, W. J. Rice; grocers, J. G. Bridges; clothing, Amos Rehberg; shoes, Dan Luby; dye works, Louis Kerstel; garage, Robert Wagg; plumbers, P. J. Scler; laundry, Charles W. Butler; and department stores, P. J. Hinterschied.

Amos Rehberg was elected chairman for the coming year. He will appoint an executive committee to work in conjunction with the secretary. The keynote of A. Jacobsen's speech, which followed, was cooperation. He said that the best thing for Janesville must be the highest market price of any city around. With your cooperation I can save Janesville from \$25,000 to \$50,000 a year but I cannot do anything without it. During the 60 years that I have lived under the Stars and Stripes I have found out that there are no classes of people, Americans and others.

"The Chamber of Commerce raises no barrier of creed and politics and may surely hope to secure the cooperation of men and women when they know it is the good of all which is sought; when they know we are for everything that will make Janesville a bigger, better, and against everything that will lessen our wealth, happiness, prestige and self-respect."

Amos Rehberg the newly elected chairman, made a few remarks concerning the work ahead of them.

William Taylor gave a short speech emphasizing the fact that Janesville is in a business-like manner or in order to be a success.

## SECOND DAY OF S. A. DRIVE PROSPEROUS

Again this morning the various committees of the Elks' lodge started out soliciting funds for the Salvation Army Home Service fund. The drive started yesterday.

Joseph J. Scholer, exalted ruler of the Elks, said this morning that the workers together to call upon the people as the committee that went out Tuesday reports that not a single refusal was met. The people approve of this is a great work that the Salvation army is carrying out. This is especially true of the boys who have seen foreign service as their decorations and the fact that of that people who did not see actual warfare.

"There seems to be a misunderstanding among some of the people about the fact that the funds raised by the money raised in Rock county will be spent in the county for the uplift of the helpless and needy."

A committee made up of the earnest appeal to the public in general to volunteer services. The Elks are only sponsoring the campaign.

Friday morning at 9 o'clock, which will be the last day of the drive, the workers hope to put the proposition over, everyone in the city is asked to get out and help the cause by giving some time to the solicitation of funds.

Thursday evening at 7:30 o'clock there will be a meeting at the Elks rooms of soldiers, sailors, mothers, wives and sweethearts of men who were in the service to advise means by which everybody in the city can be reached in the shortest possible time.

## INTER-PLAYGROUND BALL TEAMS MEET

The first of the inter-playground games which are to be held during the summer were held Monday night when the Webster team met the Washington team in a dodge and baseball and the Jefferson team met the Adams team.

In the Webster-Washington baseball game, Earl Hewett pitched and James Dehn caught for the Webster team. The game was a 7-inning game, the score at the end being 7 to 9 in favor of the Webster team.

A peppy dodge ball game was played by the same teams, the Washington team winning. The Webster team stayed in 50 seconds and the Washington team stayed in 40 seconds.

The senior teams met in baseball last night, Washington vs. Webster, and Adams vs. Jefferson. It was a well matched game.

Leary and Dawson of the Washington team and Gokney of the Webster team were the main stars of the game.

The stars on the Jefferson team were Nowlan, Nuzum, and Raubacher. On the Adams team, Curly Moore did some fine pitching.

The baseball schedule is being revised so that there will be one game each evening.

## MRS. KEENAN DIES; LIVED HERE 30 YEARS

Mrs. Katherine Keenan, a resident of the city for more than 30 years, died this morning at her home at 321 Franklin street, after an illness of four weeks. She was the widow of Owen Keenan, who died in this city 25 years ago. She was a fervent member of St. Patrick's church. Deceased was 75 years old. Her loss is mourned by two sons, John and James Keenan of this city, and four daughters, Mrs. Rose Heaney, Elsie Keenan, Katherine Keenan, and Sister Mary Augusta of St. Joseph's convent, and four grandchildren, Irene and Harold Heaney, and John and Genevieve Keenan.

Announcement of the funeral will be made later.

## CITY COUNCIL FAVORS \$15,000 FUND FOR FIRE AND POLICE

(Continued from Page 1)  
A resolution was passed by the city council last night, favoring the establishment of a fund of \$15,000 for the fire and police departments.

It was agreed that it would be the sense of the meeting to boost salaries of all men except the chiefs on both departments \$10 a month of \$120 annually, effective August 1. This would mean a first year man would receive \$100 instead of \$90; next year, \$105 instead of \$100. The provision of one day rest in seven days for these years. "It doesn't take three years to find out if a man is going to make good as a policeman or fireman," he said. "A change of this kind would make service more attractive to men."

The informal decision to put two more men on the police department was reached after Acting Chief Morrissey said that the department had been getting only one day's rest in eight for several years on account of a shortage of help, despite the fact that they were voted one day out of seven. "If we had a patrol in two weeks," said Chief Morrissey when he was asked to tell of the need of a combination patrol and ambulance. "The machine is always out of order. The time of that wreck out at South Janesville we had to go out there about 2 o'clock in the morning and put men with broken legs and other injuries in the side door of that wagon and carry them to the hospital."

"If the council had listened to my suggestion a year ago we might now own a combination ambulance and patrol," said Alderman Le Roy D. Horn.

A representative of the White Motor company showed cuts of patrol ambulances now in use in Evanston, Ill. He said he could furnish one to Janesville for \$3,700.

## WHITEWATER GIRL ACCIDENTALLY SHOT

Whitewater, July 8.—Miss Inez Piper, daughter of Mr. and Mrs. Myron Piper, who lives about three miles north of this city, was seriously shot in both feet last evening, and was taken to the Wheeler hospital. Miss Piper, a 16-year-old girl, was out with her father and he was cleaning an old gun, which had not been used for some time. Not knowing it was loaded, the gun suddenly went off, hitting her in both feet. The wound in the right foot was a severe one, and she was brought to this city to the hospital.

Word was received here Monday of the death of Harley Lewis. He was the son of Mr. and Mrs. Charles Lewis, of this city, and he was 35 years of age and spent his boyhood days on the farm at Heart Prairie.

Lou Wheeler, Spring Valley, Ill., was at the H. O. Hamilton home, a few days the first of the week.

Arthur Lowry spent Monday in Milwaukee.

Charles Steele has moved into the Rittenburg house on North Prairie street, which he recently purchased. The Rittenburg family is now occupying the Shultz bungalow.

Miss George Krohn, who at the Wheeler hospital where she had an operation Monday.

Lee Cowles was up from Chicago last Friday.

Mr. C. Olsen and Otto Renne were in Milwaukee Saturday to see Blanche Renne, who recently had an operation in a hospital in that city.

Walter Gatzig, who is erecting a cottage on their lot at Lauderdale lake.

Eben Green, Beloit, who is a recent arrival from overseas, visited at the home of Mr. and Mrs. Ed. Pollard Monday.

Mr. and Mrs. Bert Doubleday, Gary, Ind., are here visiting his mother and sister.

Joe Higgins returned to Fort Sheridan yesterday after a few days' visit at home.

Mrs. Libby Loomer, Oshkosh, is visiting at the home of Mr. and Mrs. Henry Zandke.

## BOYS UNDER 15 FIND REGULAR EMPLOYMENT

Probably more boys under the age of 16 years are being employed during the summer by various industrial plants and retail stores in the city than ever before, according to the large number of permits issued during the past few months. Nineteen permits have been made out this week by Miss Lou M. Stoddard, clerk of the municipal court, who has taken over the work in the absence of Miss Rosemary Enright, the regular state appointee.

Before a youth under the age of 16 may be employed by any concern he must first comply with the child labor law by securing the written consent of his parents, a school official, and the person in charge of issuing the permit. In spite of the "red tape" connected with the procedure, a large number have demonstrated their desire to work by complying with the law.

## MISSING

GLEN LONGSDORF  
All efforts to locate Glen Longsdorf, son of Mr. and Mrs. Paul Gehrick, 213 East Milwaukee street, have failed and the search has practically been given up as hopeless. Longsdorf was discharged from Camp Grant, May 26, and had planned to return to Janesville. He has not been seen nor heard from since that date.

When he left Camp Grant he is thought to have had between \$500 and \$600 on his person. Foul play is feared by his heart-broken mother.

(This is a reproduction from the best photograph obtainable.)

## FINES COLLECTED THIS YEAR DOUBLE AMOUNT FOR 1918

That little tendency was shown by Judge H. L. Maxwell to men arrested for intoxication during the fiscal year ending June 30, is shown by the amount of money collected as fines during the year. A draft for \$6,058.34, the same being the amount of fines paid, has been turned over to the state treasurer, City Treasurer George Muenchow stated today.

The report further shows to what extent outside imbibers frequented Janesville when their own cities were voted dry a year ago and this city was the only wet spot within 40 miles of them.

With prohibition in effect a big reduction in fines is predicted this year.

## FOURTH WARD WILL HAVE BATHING BEACH

The Fourth ward is to have a regular bathing beach with two good-sized bath houses, if the council carries out the agreement unanimously reached at the informal meeting last night. The sum of \$200, will probably be voted Monday night for the purchase of the necessary lumber.

Alderman W. J. Hill's stirring appeal for swimming facilities for Fourth and Fifth ward youngsters met with a ready response last evening. He said he would be willing to donate the use of his land along the river between the Jackson street and C. & N. W. railroad bridges on the west side of the river and that volunteers would construct the bath houses, the only cost to the city being the purchase of lumber.

He pointed out the natural safety measures of that beach and said the employment of a life-guard would be entirely unnecessary.

## FERGUS FALLS FUND NOW TOTALS \$150

A contribution of \$25 was received yesterday from Miss Ida Harris, for the Fergus Falls relief fund. This brings the total to \$150. This money will be used to help the hundreds of people to their homes. As the result of three cyclones hitting that city about two weeks ago, over two hundred people were killed and a loss of two and one-half million dollars was inflicted. The money may be left at the Gazette office or sent there in care of the Gazette Tornado Relief fund.

## 200 EXPECTED AT GUERNSEY PICNIC

Plans are being made to accommodate over 200 people at the Rock County Guernsey Breeders' association picnic to be held at the S. Kellogg nursery south of the city, July 10.

Games such as tennis and volleyball will be played and a program will begin at 2 o'clock. County Agent R. T. Glasco, J. Earl Stallard, Waukegan, and Roy T. Harris, Madison, will speak.

M. S. Kellogg, secretary of the association, hopes that all people interested in Guernseys will attend. Plans will be discussed concerning a sale of Guernseys in Rock county.

## No New Developments In Last Hold-Up Case

In an effort to prevent a recurrence of any more hold-ups in the city, the police are working quietly on what meager clues they have as to the two thugs who held up James F. Pender near the fair grounds Saturday evening, endeavoring to rifle his pockets. There have been no new developments in the case, Acting Chief Thomas Morrissey said today.

## Two are Arrested on Statutory Charges

John Oswalt and Bessie Harden will face a serious statutory charge when arraigned in municipal court before Judge H. L. Maxwell July 14 for their examination. Both entered pleas of not guilty when they appeared in court this morning. They were released in custody of Acting Chief of Police Thomas Morrissey. E. H. Ryan is the defendants' attorney.

## SCHOOL DIRECTORS AND TEACHERS HOLD ANNUAL MEETING

More than 400 school board members and county teachers gathered at the high school today for the annual school board convention.

The program began at 10 o'clock with music. F. J. Lowth, principal of the Rock county training school, gave the address on "The Need For Trained Teachers."

The shortage of teachers was explained by Mr. Lowth, by the effects of the war, taking up of other work, and the unsatisfactory conditions which exist in the country, such as salary, boarding place, and lack of interest in rural education.

Some unsatisfactory elements in the rural school situation brought out by the speaker are the large number of pupils who are not beyond the fifth grade, lack of interest in the annual school meeting, too many immature school teachers, much tardiness and irregularity in attendance, and the real worth of the teacher not recognized.

Principal Lowth brought out the things which he would like to see existing in the rural schools of the country, such as adequate salaries, teachers that are high school graduates, no school less than 25 enrollment and each school board member willing to do his patriotic duty in keeping up the school.

Supt. P. E. Nevermore, Monroe, spoke on "Thrills in Schools and Homes." He has been working on the state committee for the organization of War Savings societies. He emphasized the importance of the formation of W. S. S. societies in connection with the school work. The thought that if the children are taught to save their pennies when they are small they will have acquired the habit of thrift when grown was brought out. Most of the debt of this war will have to be paid off by the children. They must be taught the lesson of thrift in order that the greatest part of the war can be paid off by the children.

At the afternoon session, A. A. Thompson of the state department of education, was the chief speaker. He explained new school laws and discussed at length modern methods and movements in education. The work of the county nurse was explained and consolidation advantages were brought out. Every county, by law, is now required to have a county nurse.

Mr. Thompson said that the two things demanded by teachers are money, and social conditions which are pleasing to them.

P. J. Glasco, new county agricultural agent, talked on "The County Agricultural Agent's Work."

After the session many of the teachers and school board members met at length in modern methods and some teachers secured positions.

At the Apollo theater this afternoon at 4:15, Miss Martha Riley of the state board of health, addressed the members of the convention. "How Life Begins" was the picture which was shown. Miss Riley lectured with the picture. The film was made by the state board of health.

## LOCAL MAN NAMED VICE-COMMANDER OF STATE WAR VETS

Janesville's representatives at the two day convention of Wisconsin War Veterans just closed in Milwaukee were honored with important positions.

Robert J. Cunningham, one of the local delegates, was elected permanent vice-commander of the state association for the ensuing year. Col. John Turner, Mauston, was chosen commander of the organization. In addition, Mr. Cunningham served as a member of the committee on resolutions.

Capt. Harold Pelton was chosen a member of the committee on permanent organization while George Strampe, the third delegate, represented the national executive committee at the convention.

A number of resolutions were passed by the 100 delegates in attendance, the most important action being the move to petition the national body of the American Legion for acceptance of the American World War Veterans association as a branch of the legion together with independent posts in Wisconsin's possessing national charters.

The resolutions adopted at the St. Louis caucus relating to conscientious objectors, protection of the uniform, re-employment of ex-service men, disability pay, war risk insurance, alien strikers, and the espionage act, were all reaffirmed.

To emphasize the fact that the Wisconsin branch of the Legion shall not be a political organization, it was resolved that "Any person holding any office in the state organization or in any local post shall retire immediately from such office upon becoming a candidate for any county, state, or national office."

The national constitution of the Legion was approved and a state constitution formed. A resolution endorsing the need for relief for soldiers and expressing faith and confidence in the people and their representatives at Madison in giving them their just dues.

It was voted to hold the 120 state convention in Green Bay not later than 30 days before the national convention.

Local delegates all returned yesterday afternoon imbued with the desire to complete a reorganization of the Janesville post. Another meeting will doubtless be held within the next few weeks.

While in Milwaukee Capt. Pelton became a cartoonist's target. A drawing of him appeared in an evening Milwaukee paper yesterday.

## THIRD BAND CONCERT TOMORROW EVENING

The third public concert of the season will be given in the court house park beginning at 8 o'clock tomorrow evening. The program will be given by the Bower City band, stated today.

One of the features of the concert this week will be the singing of two songs, which have been recommended by David Drummond, manager of the band.

He is listed to sing "After All" and "I'm Forever Blowing Bubbles," two late popular numbers.

A program of 10 numbers announced today follows: March, "Razzie Dazzie" by Lenzenberg Allegro, "Majestic" by King, Overture, "The Champion" by Hazel Song, "I'm Forever Blowing Bubbles" by Kenbrovin Kellatte, Valse, "Enchanted" by Moret, Descriptive, "English Hunting Scene" by Buehoss, Song, "After All" by Roberts, Overture, "The Champion" by Chambers, March, "Central Park" by De Witt, Finale, "Star Spangled Banner."

## PLACING CHARACTER

A friend of mine had to wait some weeks for a letter from a man with whom he has business dealings, although he had every reason to expect a prompt answer.

His family, who were impatient for his answer because upon it depended certain of their plans for the summer, were very caustic in their comments on the delay.

"I don't see how he can be so selfish about it," was one comment. Another was, "He has probably decided to turn you down and is putting off waiting because it's a disagreeable job." I don't think that's of him when he knows that you ought to know, so that you can make your plans."

"Did he ever do anything of that sort before?" countered the man.

"No, but—Character Doesn't Change in a Night."

"Well, I don't think he will this time. Character doesn't change in a night."

"Then why couldn't he write?" "I don't know, but I feel sure that he has some very good reason. I'd like to stake anything on a guess. I'd say he was sick."

"Perhaps he is and perhaps he isn't," said the critic darkly. Finally he said that he was exactly the news it brought—that he had been very ill and that he was now ready to give the man the chance he had asked for.

## A CHANCE TO LIVE

## THE TETHER OF CIRCUMSTANCES

Annie walked slowly away. The girl Nena had thrown her mind into chaos. She began to realize the "snob" idea she had fallen into by reason of her success and happiness. She began to examine her "success" more closely. Success? She had \$12 a week, and fourteen would just keep her family going, with a tiny margin for a rainy day—in case she or Aunt Maggie got sick or something.

If she married Bernie right off, and went to housekeeping on his \$20 wage, even Bernie's place as breadwinner for the family. Unless—unless she started as Annie did, at barely 14, in the basement of a store, and then went into the factory.

Annie remembered and renewed her self-imposed oath that never, never should she go into a factory. Better love deferred indefinitely. Better even break her engagement with Bernie and leave him free to find some girl who could bring him immediate happiness! At this thought tears of despair rushed to her eyes as she climbed the grimy stairs of her tenement. She couldn't give Bernie up. She must find some other way out.

They had not yet discussed the date of their wedding. The most definite stamp which had been placed upon their relation was Bernie's insistence upon a ring. And this had so glorified the situation that Annie's thoughts had not extended further for the time.

for both," Annie looked down on it lovingly, but with a wee gleam of worry in her eyes. She turned it round and round thoughtfully, not speaking.

"Come! What's the gloom about?" said Bernie, catching her hands and making her look into his face.

"No gloom, Bernie! I was just thinking. Well, quit thinking and come on up to Gilbert's; they got a new bill there this week."

Between two scenes of the play at Gilbert's stock company theater where seats were "ten, twenty, thirty" and for his money, Bernie reached for his girl's hand, felt the ring on it and whispered:

"Now, when are we going to get married?"

"Oh, Bernie," Annie whispered back, holding tight to his thumb, "not for a long, long while."

"What-a-ty?" Annie nodded positively, but the darkness hid her worried look. Bernie supposed she was coqueting.

"Aw, quit being coy. April, huh?" "Oh, Bernie, no! Then, as he had heard nearer and was in danger of making them conspicuous if the lights went up, Annie added, "I'll tell you after," and so postponed her task.

As they walked home after the show, Bernie reopened the subject. "Why not April?" he said tersely.

"Oh, Bernie, why would we be in such a hurry? I'm not 19 yet!" Annie giggled for time.

"What's the odds? There ain't no age limit, is there? How old do you have to be? You've had practice housekeeping."

"But we want to start nice, Bernie, and have money saved—and all."

"That'll be all right by April. A little bunch of us fellows have a pool. Nan, that's certain sure to bet us a tidy bit. Go on, Nena, put it down for April," he pleaded. How Annie longed to say yes.

**QUESTIONS AND ANSWERS**  
Chronic indigestion and gas. Is there any remedy, either medicine or drugless remedy, which will cure chronic indigestion and gas in the stomach and bowels. The doctor said I had chronic gastritis. (Mrs. C. G. H.)

**ANSWER**—The term gastritis does not mean gas in the stomach, but is medical Latin for stomach inflammation. It is not a disease, but a condition, and there is no remedy, medical or drugless, that can be called a cure for chronic indigestion or for gas in the stomach or bowels, for the reason that such complaints do not depend on any particular trouble, but are made by persons afflicted with all sorts of troubles, such as heart disease, cancer, gastric (stomach) ulcer, chronic appendicitis, and on a considerable more overeating or eating may be the disease. If you have gastritis, you had better not attempt to cure yourself, but follow your doctor's directions. Life is short and full of care, yet it is sweet enough to keep as long as possible.

I have heard that too many growling people are due to a considerable quantity of oxygen from the air, making it more unfit to breathe, and then again I have heard the idea scoffed at. Please let me know which is right. (S. S. D.)

**ANSWER**—Every schoolboy after coming to school to study botany or biology knows that the idea should be scoffed at. Plants absorb carbon dioxide from the air, and give off oxygen; animals and human beings absorb oxygen from the air and give off carbon dioxide.

A DISCOVERY THAT  
BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product **HORLICK'S** named **Malted Milk**. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

## Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: When I was 17 years old I became engaged to a boy a year older than myself. We had been engaged four years when he was drafted and went to camp. He insisted on breaking our engagement because he said he might never come home and it would be unfair to me to remain engaged. I loved him so much that I didn't care what happened and so I wanted to get married before he went away. I work and could take care of a husband if he came back injured for life. But my friend would not think of getting married and I had to give him up.

When he was at camp he wrote to me once a week and I wrote him almost every day. He said he would come back and I would not hear from him all the time he was over there.

He has returned home now and is working. He has not come to see me and when we have met on the street he only speaks to me but does not try to talk to me or ask to come over. Since I broke the engagement on his request for fear he would be killed or injured, don't you think he would ask to renew it now that he has come back all right?

I am heart-broken and I cannot understand why he acts so. Shall I write and ask him what he wants to do with his life? ROSALIE.

It appears as if the young man became engaged at an age when he did not know his mind. He wanted to be free and his going to war furnished an excuse for him to break away from his obligation.

Do not write to him or expect him to come back. Give him up bravely so that he will not know how much you are hurting him. Go with other young people and in time you will forget him for some one else. You are all very young and your early engagement has prevented you from getting the various young men which you should. Be careful, however, to choose desirable friends.

Dear Mrs. Thompson: I have some good neighbors and some bad ones; some of them are all the time gossiping, and that is something I do not do. I don't think them for coming around and talking.

What can I do to keep them from coming to me and talking so much? I don't want to ask them to stay away from my house.

I tell them I have enough to do to attend to my own affairs. I don't want to have any hard feelings against any of them, but I don't go to the houses of some of them; at all, although they come to my house.

I want to get your advice.

**BROWN EYES.**  
Nip gossip in the bud. When something is being said that you feel something concern you, say so at once. Tell your visitor that you consider the other person's affairs none of your business. If you consistently refuse to listen to gossip your uncles and you will have the friends who are worth while.

Dear Mrs. Thompson: Will you please advise me how to wash an old rose taffeta dress in gasoline so that it will not circle. Will it make it fade?

Is it right to dampen a cloth to put over it to iron it, or will it spoil? THANK YOU.

Use plenty of gasoline and if the dress is thoroughly immersed there is no danger of its circling. Gasoline does not fade colors.

The dress will press without a dampened cloth except where it is badly wrinkled. The dampened cloth will not spot taffeta as a rule.

By ELOISE.  
Summer materials are popular this year. That may sound queer, but it isn't, for during the past few years summer has come and gone and summer materials have lain quietly on the shelves with never a demand for more than four yards at a time. But this summer is different. Women are tired of wearing serge suits and frocks the year round. They are tired of being practiced by wearing dark clothes through the summer; and so all the summer frocks and furberlows are being revived and "really truly" summer materials are being made into dainty, cool-looking gowns for warm weather wear.

Here is a girlish model made of fresh colored indestructible voile, with a extra fitted like raglan. Many tiny satin ruffles trim the sleeves, the round collar and the apron-like tunic. A bow of satin underneath the outer blouse gives the effect of a medallion in the front. Such a frock is appropriate for summer porch or garden parties. The leghorn hat has a pink puff crown with a wreath of rosebuds and flowing pink and blue ribbons for trimming.

THIRD RECIPES.

Ham Patties—Take cold boiled ham and grind. To each cup of ham

cracker crumbs add one egg. Mix all together; make into patties and fry.

Mixed Summer Salad—Three heads lettuce, five tender radishes, one

umber, three hard-boiled eggs.

Two teaspoons of white sugar, one

teaspoon of salt, one of pepper and one

of prepared mustard, one teaspoon of

vinegar and one-half teaspoon of

salad dressing or salad oil. Mix

together and serve with a lump of ice

in middle.

FOR THE "DRY" SPELL.

Combination for Cold Drinks—

Lemonade and loganberry juice ginger

ale and grape juice ginger ale and

cream. (One tablespoonful to a

glass.)

Lemonade and orange juice, equal

quantities.

Grape, lime, loganberry and pine-

apple juices add very much to the

flavor of cold drinks, alone or in com-

bination. Raspberry vinegar may be

made or purchased, also raspberry

and strawberry syrups or any of these

syrups are easily made at home.

Don't forget that it is the bit of color

which is very appealing in these sum-

mer drinks. Incidentally a good way

made use of the champagne glasses

to serve the ginger ale in them and

watch it bubble and sparkle.

Mock Lemonade—One quart diced

rhubarb, one quart water, two cups

sugar, two teaspoons lemon extract,

one wash and pare rhubarb, cut

in small pieces, put in stewpan with

water; place over the fire and boil

until tender. Cool and strain through

fine sieve; add sugar and lemon ex-

tract. Add about three quarts of ice-

cold water and serve. This makes

about a gallon.

Note—This can be made up in large

quantities and bottled for future use.

For bottling—use one cup of sugar

to each pint of juice, boil about 10

minutes or until it forms a syrup.

Add one teaspoonful of lemon extract

for each pint just before taking from

stove. Bottle and use this also as

foundation in making your fa-

vorite fruit punch.

Root Beer—One bottle root beer

extract, four pounds granulated sugar,

five gallons lukewarm water, one-half

pint fresh yeast or two cakes com-

pressed yeast or in very warm weather

one cake compressed yeast.

Take five gallons lukewarm water,

dissolve in this four pounds of gran-

ulated sugar; add the root beer ex-

tract (be sure and shake bottle well),

then half a pint of fresh yeast or one

or two cakes compressed yeast. Stir

all thoroughly for a few minutes.

Boil in strong brine, tying the

corks on in fruit jars. Put in a warm

place for 10 to 24 hours to start fer-

mentation, then place in a cooler spot

if wanted. If allowed to set three

or four days it will be more

sparkling. If compressed yeast is used

dissolve in cold water before adding

to the other ingredients.

## Pieces of Eight

Being the authentic narrative of a treasure discovered in the Bahamas Islands in the Year 1008—now first given to the public.

By  
RICHARD LE GALLIENNE.

However, the man who had mortised them had done an honest piece of work, and they proved as firm as on the day they were placed there. Up and up I went, till I must have been forty feet above the floor, and, then, as I neared the foot, instead of coming to a trap door, as I had conjectured, I found that the ladder came to an end at the edge of a narrow ledge, running along the ceiling chain as a clerestory runs near the roof of some old churches. On to this I managed to climb. It was barely a yard wide, and the impending roof did not permit of one's standing erect. It was a dizzy situation, and it seemed safest to crawl along on all fours, holding the lantern in front of me. Presently it brought me up sharp in a narrow recess. It had come to an end.

Yes! but imagine my joy! It had come to an end at a low archway rudely cut in the rock. Deep set in the archway was a stout wooden door. My first thought was that I was trapped again, but, to my infinite surprise and gratitude, it proved to be slightly ajar, and a vigorous push sent it grinding back on its hinges. What next? I wondered. At all events, I was no longer lost in the bowels of the earth; step by step, I was coming nearer to the frontiers of humanity.

But I was certainly not prepared for what next met my eyes, as I pushed through the low doorway with my lantern, and looked around. Yes! indeed, man had certainly been here, man, too, very purposeful and businesslike. I was in a sort of low narrow gallery, some forty feet long, to

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this cleans and moistens your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisided coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

which the arching rock made a crypt like ceiling. At my first glance, I saw that there was another door at the far end similar to the one I had entered by; and on the left side of the gallery, built of rough stones from the low ceiling to the floor, was a series of compartments, each with locked wooden door. They were strong and grim looking, and might have been taken for prison cells, or family vaults, or possibly wine bins. The massive locks were red with rust, and there was plainly no possibility of opening them.

On the other side of the gallery there was a litter of old chains, and some boards, probably left over from the doors. Yes, and there were two old flintlock guns, and several cutlasses, all eaten away with rust, also

a rough seaman's chest open and falling to pieces. At the sight of that, a wild thought flashed through my brain. What if— Good God! What if this was John Teach's treasure—behind those grim doors. I threw myself with all my force against one and then the other. For the moment I forgot that my paramount business was to escape. But I might as well have hurled myself against the solid rock. And, at that moment, I noticed that the place was darker than it had been. My lantern was going out. In a moment or two I should be in the pitch dark, and I had discovered that the door at the end of the gallery was as solid as the others.

I was to be trapped, after all; and I pictured myself slowly dying of hunger—the pangs of which I was already beginning to feel—and some one, years hence, finding me there, a moldering skeleton—some one who would break open those doors, uncover those gleaming boards, and moralize on the irony of my end; condemned to die there of starvation, with the treasure I had so long sought on the other side of those unyielding doors. Old Tom's words suddenly flashed over me, and I could feel my hair literally beginning to rise. "There never was a buried treasure yet that didn't claim its victim." Great God!—and I was to be the ghost, and keep guard in this terrible tomb till the next dead man came along to relieve me of my sentry duty!

Frankly I turned up the wick of my lantern at the thought—but it was no use; it was plainly going out. I examined my match box; I had still a dozen or so matches left. And then my eye fell on that shattered chest! There were those boards, too. At all events I could build a fire and make torches of silvers of wood, so long as the wood lasted.

And then I had an idea. Why not make the fire against the door at the end of the gallery, and so burn my way through. Brave! My spirits rose at the thought, and I set to at once—splitting some small kindling with my knife. In a few minutes I had quite a sprightly little fire going at the bottom of the door; but I saw that I should have to be extravagant with my wood if the fire was to be effective. However, it was neck or nothing; so I piled on beams and boards till my fire roared like a furnace, and presently I had the joy of seeing it begin to take hold of the door—which, after a short time, began to crackle and splutter in a very cheering fashion.

Whatever lay beyond, it was evident that I should soon be able to break my way through the obstacle, and, indeed, so it proved; for, presently, I used one of the boards as a battering ram, and, to my inexpressible joy, it went crashing through, with a shower of sparks, and it was but the work of a few more minutes before the whole door fell flaming down, and I was able to leap through the doorway into the darkness on the other side.

As I stood there, peering ahead, and holding aloft a burning stick—which proved, however, a poor substitute for my lantern—a wonderful sound smote my ears. I could not believe it, and my knees shook beneath me. It was the sound of the sea.

Yes, it was no illusion. It was the sound that the sea makes singing and echoing through hollow caves—the sound I heard that night as I stood at the moonlit door of Calypso's cavern, and saw that vision which my heart nearly broke to remember. Calypso! Oh Calypso! where was she at this moment? Pray God that she was indeed safe, as her father had said. But I had to will her from my mind, to keep from going mad.

And my poor torch had gone out, having, however, given me light enough to see that the door which I had just burnt through led out onto a narrow burrow on the side of a rock that went slanting down into a chasm of blackness, through which, as in a great shell, boomed that murmuring of

the sea. It was a perfunctory look, and it was plain that it would be foolhardy to attempt it at the moment without a light; and my fire was dying down. Besides, I was beginning to feel light-headed and worn out, partly from lack of food, no doubt.

As there was no food to be had, I recalled the old French proverb, "He eats who sleeps"—or something to that effect—and I determined to husband my strength once more with a brief rest. However, as I turned to throw some more wood on my fire—preparing to indulge myself with a little campfire cheerfulness as I dozed off—my eyes fell once more on that grim line of locked doors; and my curiosity, and an idea, made me wakeful again. I had burned down one door—why not another? Why not, indeed?

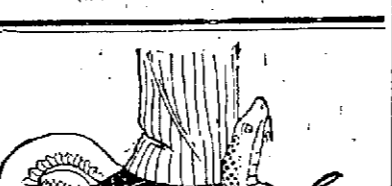

So I raked over my fire to the family vault nearest to me, and presently had it roaring and licking against the stout door. It was, apparently, not so solid as the gallery door had been. At all events, it kindled more easily, and it was not long before I had the satisfaction of battering that door too.

As I did so, I caught sight of something in the interior that made me laugh aloud and behave generally like a madman. Of course, I didn't believe my eyes—but they persisted in declaring, nevertheless, that there in front of me was a great iron-bound oak chest, to begin with. It might not, of course, contain anything but bones—but it might! The thing was too absurd. I must have fallen asleep—must be already dreaming! But no! I was laboring with all my strength to open it with one of those rusty cutlasses. It was a tough job, but my strength was as the strength of ten, for the old treasure-hunting lust was upon me, and I had forgotten everything else in the world for the time.

At last, with a great wooden groan, as though its heart were breaking at having to give up its secret at last, it crashed open. I fell on my knees as though I had been struck by lightning, for it was literally brimming over with silver and gold pieces—doubletons and pieces of eight; English and French coins, too—guineas and louis d'ors: "all" as Tobias' manuscript had said—"all good money."

For a while I knelt over it, dazed and blinded, lost; then I slowly plunged my hands into it; and let the pieces pour and pour through them, literally bathing them in gold and silver, as I had read of misers doing.

Professor H. Strauss, M. D., of the Royal Charity Hospital, says, "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with sick headache, or dizzy, nervous spells, acid stomach; or you have rheumatic pains or lumbago, gout, sciatica, when the weather is bad, do not neglect the warning, but try simple means. Take six or eight glasses of water during the day, then obtain at your nearest drug store 'An-uric' (anti-uric acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. 'An-uric' is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar. 'An-uric' will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

## Dinner Stories

A gentleman while visiting in a rural district, dropped in on a boyhood friend, now a justice of the peace. While chatting over old times a couple came in to get married. The

justice married the pair and, after accepting a moderate fee handed the bride an umbrella.

The visitor observed the proceeding in solemn silence, but after the couple had gone he asked:

"No. I mean give the bride a present."

"A present? Why, wasn't that her umbrella?"

"No," said the visitor peevishly, "it was mine."

A north countryman charged with having set fire to a large haystack was defended on the ground that he was not altogether responsible for his actions. One of the witnesses testified to the belief that the prisoner was "wragg in his head."

"Can you mention any occasion on which the prisoner behaved in a manner to warrant your statement?" he was asked by the learned counsel.

"Yes," answered the witness. "Once at work he got half a crown too much for his wages."

"Well," said counsel as the witness hesitated.

"He took it back to the manager," concluded the witness.

According to the Wichita Eagle, an editor in a nearby town has moved his press over against the door and is having his meals sent in at the window since he let this get by in a society room. "Mrs. Cat's popularity is evidenced by her many friends in this vicinity."

Big Lumber Movement Starts From Northwest  
Seattle, Wash.—The greatest single lumber movement in the history of the fir industry is the movement of 45,000,000 feet of railroad ties from the Pacific Northwest to the United Kingdom, which started June 20 and will continue until early fall. Thirty wooden vessels have been placed in this service by the U. S. Shipping board, 20 of which will carry 30,000,000 to 40,000,000 feet. The ties have been bought by the British interest for reconstruction in England and other western European countries. This order leaves the shipping board with but little idle wooden tonnage. There is a general lumber famine in Australia, and it is said that more than 4,500 houses are standing in an unfinished condition.

## Famo Dissolves Dandruff Scale and Destroys Bacilli

After the first application of Famo, you should not have a flake of dandruff. If the case is stubborn, a little may remain, but not for long. The germs will be dead and dying—the new growth begun. Your hair will be like the hair of healthy children, fresh, full of life, soft, smooth and glossy. All itching will be gone.

Famo Will Win Fight  
If it is falling out, your hair is fighting for its life. Famo will win that fight by killing the scalp which kills the hair. Dandruff is a disease which scientists call Seborrhea. It is the result of the action of the bacteria on the scalp. Famo, the hair leaps into luxuriant new growth.

Healthy, Beautiful Hair  
It is, we repeat, like removing the scum of the scalp—giving back to your hair its early strength and beauty. Famo will keep the head continuously clean, fresh, full of life, soft, smooth and glossy. If your hair ever had a natural tendency to fall out, or was coming back the waviness and intensity it.

New Hair Is Grown  
New hair growth from Famo is constantly being reported. Some of the cases are so remarkable that they cannot be reported in print, because they would tax your credulity. You must learn from personal experience and the experience of your friends. Famo contains no alcohol to dry the scalp and produce gray hairs. As Famo requires no scalp massage, every member of the family should use it every day. Famo is sold at all toilet goods counters in two sizes—a small size at 35 cents and an extra large bottle for \$1.00. Your money will be returned if you are not satisfied. Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The morbid excretion forms in scales or flakes and is commonly known as dandruff.

## NUXATED IRON, A DRIVING FORCE

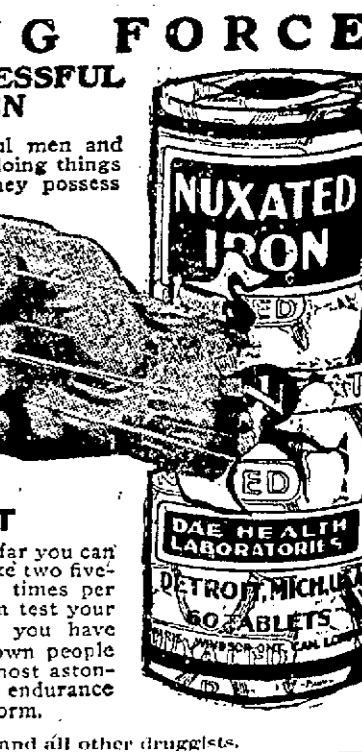

BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron. Nuxated Iron by enriching the blood and creating new red blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed force and energy into the whole system. Three million people use it annually as a tonic, strength and blood-builder.

MAKE THIS TEST

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form.

# Blackhawks Will Meet Fast Brodhead Aggregation Here Sunday.

By George McManus

## MULLEN TO HEAVE FOR HOME BOYS

Tim McCue's Blackhawks, famous stick chiefs of the third ward, are scheduled to engage in a nine-inning combat with the fast Brodhead aggregation at the fair grounds diamond Sunday afternoon. The opening gun will be fired at 3 o'clock.

Manager Doran completed all arrangements for the game today. He plans to have Mullen, the snaky Milwaukee pitcher, on the mound, with President McCue behind the pan.

The Hawks journeyed to Brodhead last Sunday and defeated this same team in a fast game by an 8 to 5 score. So impressed were the Hawks with their opponents' style of play that immediately after the game they began hickering to arrange a contest in Janesville this Sunday.

Brodhead is coming down here well loaded for the fray, according to McCue. Efforts are being made by the invaders to secure the services of a pitcher from Durand for this game. The hill was the only weak part of the Brodhead nine last Sunday and with this hole plugged a real game should result.

Clatworthy, who with McCue, clouted out four hits up there Sunday, will be on the job again this week holding the short-stop position. Clatworthy is reputed to be a brilliant fielder and an able successor to Skelly Hill, who has handed in his resignation from the Hawks.

Doran will be on first with Jack Butters on the keystone and his brother, Cuddy Butters, stepping about the far corner. Eastman, a string pitcher, Marshall, Cutts, and Smith will chase them out in the garden.

### FAIRIES DEFEAT WHITE SOX, 4-2

Beloit, July 9.—Beloit's Fairbanks-Morse team won an exhibition game from the Chicago White Sox, 4 to 2 here yesterday afternoon.

The Fairies scored three runs in the first on hits by E. Collins and Weaver and hits by Baxter and Perring. Their other tally came in the eighth on Baxter's home run.

The Sox pair came in the second on singles by J. Collins, Russell, and Lynn, Boston booting Lynn's hit for the second run.

Bunny Hearn pitched good ball for the Fairies. Danforth and Shellenbach took turns in facing the home town batters.

### SPORT SNAP-SHOTS

BY JACK KEENE.

The club owners and players of the two major leagues are now considering a new plan for the division of the world's series receipts in the fall, and it is expected that the national commission will adopt the new plan with effect in the next few weeks. Last year's scheme of permitting the first four clubs to share in the receipts was only an experiment, and although favored by several National league club owners, it is likely to be abandoned. It was the idea of John K. Tener, former president of the National league, to give this plan a one year's trial. As it did not prove satisfactory, the leagues will now try a new plan.

The American league has gone on record as favoring a return to the old conditions governing the series, that the entire sum allowed for the play-off games go to the members of the two competing clubs in the classic. The National league favors a curtailment of the share for the members of the competing clubs, so the result will probably be a compromise.

The plan, which is likely to meet the approval of the club owners and players of both leagues, provides that the players' pool—consisting of about 80 per cent of the receipts of the first four games—will be split so that 75 per cent of this pool shall go to the players of the two contesting clubs, while the remaining 25 per cent will go to the members of the clubs finishing in second and third places in the pennant races in their respective leagues.

As the receipts of the world's series this fall promise to be larger than ever before in the history of baseball, the officials of both leagues favor a curtailment of the amount which should go to the members of the con-

testing clubs. The price of the tickets was cut last fall to meet war conditions, but the national commission has already decided to re-establish the scale of prices which governed the big series. Under the new plan, the official figure that the members of the winning club will receive is close to \$3,000 each, while the members of the losing club will get in the neighborhood of \$2,000.

The greatest total receipts ever taken in at the world's series was in 1912, when the Giants played the Boston Red Sox. This series of eight games drew a total gate of \$490,443, and the players' share was \$147,572.25. This was not the largest players' pool, however, because in 1916, when the Red Sox defeated the Brooklyn club, the players' share reached \$152,888.58, which is the record of the classic.

The players' share in this series reached such a high figure because of the unusually large crowds at the games played at Braves field in Boston. There was an attendance of 41,373 paid admissions in the second game, while in the fifth game of that series, a record figure for attendance at a world's series contest was established, 42,620 spectators seeing the game. The players, however, did not share in this game.

Up to that time, the record attendance at the series was at the opening game between the Giants and Athletics at the Polo grounds in 1911. At that game \$8,281 spectators paid to see the game. While there have been large crowds in the Polo grounds at Army-Navy football contests, this 1911 figure is the largest attendance that has ever been officially reported in the Bush stadium.

Cincinnati—Champion Jack Dempsey received an offer of \$125,000 for a fight with the winner of the Carpenter-Beckett bout in London.

## DR. SOMMERS COMFORT SHOES

- 1—Have a nail-less heel seat.
- 2—They contain nerve-resting shock absorbers built into these shoes while in process of making.
- 3—They do away with jar to the body when walking and rest the body when standing.
- 4—The shock absorber and the top layer of the insole prevent the nails in the heels from coming in contact with the foot.
- 5—Dr. Sommer's Comfort Shoes reduce wear on the hose.
- 6—They have pliable bottoms, perfectly smooth on the inside. Need no breaking and feel easy the moment put on the foot.
- 7—They are built on up-to-date, specially designed, 100% foot comfort lasts.
- 8—Best quality full grain and full chrome leather is used in the uppers.
- 9—No seam at the vamp to rip or cause pressure on the foot.
- 10—Soles are over-weight to give good service, yet the bottoms are so constructed by our patented process as to be pliable.
- 11—The insole consists of a specially constructed waterproof under-layer and a one-piece solid leather top-layer. Same are built-in by patented process, and form a nerve-resting foundation under the foot.
- 12—They make your feet feel as comfortable after the day's work as when you started in the morning.
- 13—Nothing to bind—Nothing to pinch—Nothing to hurt.
- 14—Popular price—Unusual Value. Save repair bills—Cut down your shoe bills.

### Thousands of Cats are Homeless by Prohibition

[BY INTERNATIONAL NEWS.] New York.—Another of the evils of prohibition has been discovered. Seven thousand cats have been made homeless in New York by the closing of the saloons. It is estimated that there are over 7,000 saloons in New York, and outside the fashionable bars in the big hotels, it is estimated that every barroom had its cat, some of them more than one. Now that the saloons are closed the cats are homeless.

## WHO'S WHO in the Day's News

HIRAM JOHNSON.

"This means that American boys shall police the world; that all tottering nations of the world shall be upheld by our blood and our bone; that Europe, Asia and Africa must draw upon us in their every dispute and quarrel; that our nation will be at the mercy of European and Japanese diplomats who never had and never will have any sympathy with our aspirations or our ideals. For one I make the issue with them. It is not one political party or the other. The issue is the republic."

The republic that Washington gave us, the Lincoln that Lincoln saved for us, whose traditions and ideals have been so gloriously upheld by our valiant sons abroad. The issue is American. I am an American."

This is the reason why Senator Hiram Johnson opposes the league of nations covenant, as approved by the Paris peace conference.

Few men in public life have had such a spectacular rise as Senator Johnson. His political career started in San Francisco when that city was in the hands of grafters. He was instrumental in having Abe Ruef, the mayor, convicted and imprisoned.

Johnson then proceeded to overturn the political machine in that city, which was controlled by the Southern Pacific railway. He succeeded and received from his people the sobriquet of the "Fighting Governor," when he was elected to the governorship as the Republican nominee of the Lincoln-Roosevelt league, a progressive Republican organization. In 1912 he served as the running mate on the vice presidential ticket with the late Theodore Roosevelt. He took his seat in the United States senate two years ago.

Senator Johnson was born in Sacramento, Cal., Sept. 2, 1856. He was admitted to the California bar 21 years ago.

Senator Johnson was born in Sacramento, Cal., Sept. 2, 1856. He was admitted to the California bar 21 years ago.

Gov. JOHNSON

He is the reason why Senator Hiram Johnson opposes the league of nations covenant, as approved by the Paris peace conference.

Few men in public life have had such a spectacular rise as Senator Johnson. His political career started in San Francisco when that city was in the hands of grafters. He was instrumental in having Abe Ruef, the mayor, convicted and imprisoned.

Johnson then proceeded to overturn the political machine in that city, which was controlled by the Southern Pacific railway. He succeeded and received from his people the sobriquet of the "Fighting Governor," when he was elected to the governorship as the Republican nominee of the Lincoln-Roosevelt league, a progressive Republican organization. In 1912 he served as the running mate on the vice presidential ticket with the late Theodore Roosevelt. He took his seat in the United States senate two years ago.

## Bathing Suits Are Camouflaged Now

By ELOISE.

This season has brought a number of surprises in the use of unusual materials in unusual ways. Among the unique innovations of the coming swimming season we find calico or English print bathing suits, crepe de chine, rubberized crepe and loud plaids in sport silks. Crepe de chine is being accepted with great enthusiasm and it offers many advantages over the more familiar silk and satin of former years. Many women, however, prefer crepe to all other fabrics, as it does not cling to the

figure as do the softer things when wet. Jersey, of course, is still the standard of the real swimmer. It is made in many attractive colors and usually is scant enough to allow almost unconfined freedom of the limbs and is more comfortable when wet. The very newest and most unusual of the season is the camouflage suit. Perhaps it is so sharks, both the sea and land variety, will not be able to recognize them that the fair swimmers are going to wear camouflaged suits this year. Whatever the cause, the effect is quite stunning. At the left black and white in lightning of

fact makes a startling suit. It is satin with short knickers and no sleeves. More daring still is the one in the center. It uses the sunset camouflage. Black and white ground with a red sun and rainbow colored rays is the combination. At the right is the always practical and stunning black satin suit. It is made with bloomers fashioned after riding breeches and a short sleeveless tunic for the skirt. Green wool embroidery trims the bottom of the skirt and the neck and a green wool cord is tied about the waist. The rubber hats and caps may be purchased in almost every desired price from 25 cents to \$5.

### CURE UNKIND HUSBANDS

London.—W. D. Cornish, a Justice of the Peace, has a new way of settling matrimonial difficulties. When wives come to him with their tales of woe he invites their husbands to call, seats him in an armchair, gives him a cigar, and in a heart-to-heart chat patches up the marital troubles.

### MORE IRISH WHISKEY

Dublin.—Pot-still distillers in Ireland are again working after two years inactivity, and the quantity of whiskey in bond is being augmented rapidly.

## FORTY YEARS AGO

Janesville Daily Gazette, Wednesday, July 9, 1879.—David Jeffris' new hotel has reached the third story.

Weekly meeting of the Y. M. C. A. in their rooms at eight o'clock this evening.

The First Methodist church holds a social at the home of J. G. Hayner, this evening.

The shoe factory is 100 orders behind, and is being pushed lively in order to keep the trade supplied.

Mrs. R. B. Curtis and her son, Rev. Olin A. Curtis, arrived today and are the guests of Mr. and Mrs. S. D. Conant. They are warmly welcomed to their old home by their many friends.

The steamer in the Second ward which has held the combination of all the gate locks within a radius of half a

mile, has been sold to a butcher and the public can now have the satisfaction of tearing his flesh to pieces, bit by bit. That steer could steer safely and successfully through any fence and all will rejoice that his days are numbered. The second ward wares will now only be fastened with six padlocks; the additional number being now unnecessary.

George Reese ought to feel proud and doubtless does. He has five children all of whose names appeared on the honor roll printed in the Gazette last night.

Last evening a special meeting of the Common Council was held. The Mayor presiding and all the aldermen in their places except Aldermen Cox and Davis. Some orders for grading Bluff street were lost.

## Predict Coffee Shortage; Blight in Brazil Fields

[BY INTERNATIONAL NEWS.]

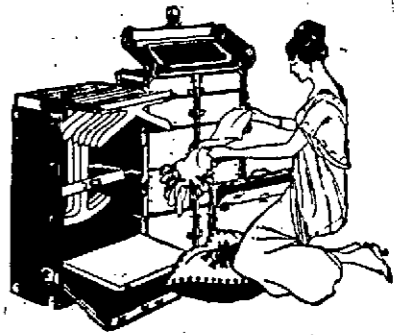

New York.—Coffee will soon become a luxury to the average consumer, if the predictions of New York coffee merchants come true. A blight in Brazil is said to have destroyed vast fields, which coupled with the shortage of tonnage for transport, is going to send coffee a great deal higher, according to dealers.

## Farnum, Actor, Can Fish, Catches 118 1-2 lb. Tuna

[BY INTERNATIONAL NEWS.]

Los Angeles, Cal.—William Farnum, the actor, added to his laurels as a fisherman recently by catching a 118 1-2 pound tuna in the Catalina water. It took one hour and 45 minutes to bring the fish to gaff. Farnum won the blue ribbon of the Southern California Tuna club in recognition of the catch.
